EXPERIENCE

[PartsAvatar.ca](#), Senior Software Engineer — *Remote*

Jan 2024 - PRESENT

- **Enhanced Error Reporting:** Implemented session replays in Sentry to improve error reporting, resulting in a **30%** reduction in errors and faster issue resolution.
- **3D Secure (3DS) Integration:** Successfully integrated 3DS authentication to enhance transaction security and compliance, thus increasing revenue.
- **Next.js and Cypress Upgrades:** Upgraded Next.js from v10 to v12, and subsequently to v14. Also updated Cypress E2E tests to align with the new project structure, ensuring a smooth transition and improved testing efficiency.
- **Website Optimization for B2B Customers:** Modified website for B2B customers to have a distraction-free interface as they are high-paying customers.

[PartsAvatar.ca](#), Software Engineer — *Remote*

June 2021 - Dec 2023

- Optimized website performance by implementing best practices for web vitals resulting in improvement in page speed insight scores
- Took ownership of various features and contributed to the core user-facing storefront product
- Developed an in-house chat widget using WebSockets to increase user engagement and improve customer service
- Worked on integrating 3rd-party tools such as Stripe for payments, and Klaviyo for email marketing

[Bobble AI](#), Software Developer Intern — *Remote*

January 2021 - May 2021

- Successfully migrated Mint Keyboard APIs from monolithic to microservice architecture
- Reduced latency of log ingestion APIs

[Leena AI](#), Software Developer Intern — *Gurgaon, India*

June 2019 - August 2019

- Developed the flow dashboard and implemented a reusable customized heatmap component to improve data visualization and analysis

PERSONAL PROJECTS

Twitter Clone — [Website](#) | [Github Link](#)

A functional clone of Twitter consisting of key features of Twitter

Code Pair platform — [Website](#) | [Github Link](#)

A real-time collaborative editor with video-calling support

Web Chat Application — [Website](#) | [Github Link](#)

Web chat application with photo-sharing support
